OBJECTIVE

Passionate and highly motivated Computer Science graduate seeking a challenging Software Developer position. Eager to apply theoretical and practical knowledge acquired through academic projects real-world software development tasks. Committed to continuous learning and professional growth in a dynamic and collaborative work environment.

EDUCATION

ABESIT College of Engineering 2021 – 2025
Bachelor of Technology, Computer Science and Engineering - 7.32 CGPA Ghaziabad

Silver Bells Public School 2019 – 2021
12th (Senior Secondary Examination) - 90.8% Shamli

Silver Bells Public School 2017 – 2019
10th (Secondary Examination) - 84.4% Shamli

TECHNICAL SKILLS

Languages:Java

Front-End Development:Html, CSS, Bootstrap

Back-End Development:Spring core, Spring MVC, SAP Commerce Cloud

Databases:MYSQL

Developer Tools:IntelliJ IDEA, Git/Github

PROJECTS

Supermart | [SAP Commerce Cloud](#) SEPT 2024

- **Developed** a SAP Commerce B2C application named Supermart using SAP Hybris Commerce to enhance customer experience and streamline online sales processes.
- **Implemented** a dynamic attribute in SAP Hybris Commerce to calculate total product orders, along with a cronjob for automated processing.
- **Created** a new attribute and cronjob for CustomerLevel determination based on order value in the customer item type.
- **Enhanced** the registration page by adding Aadhar Number and mobile number fields for improved customer data collection.
- **Introduced** a new product attribute, LaunchDate, to facilitate product lifecycle management.
- **Designed** and integrated a validation interceptor to ensure LaunchDate is set no earlier than one year from the current date, ensuring data integrity.

NOU LMS | [Java](#) AUG 2024

- **Developed** the LMS software using Spring MVC architecture, ensuring a scalable, maintainable, and modular design to efficiently manage course content and user data.
- **Integrated** Spring Data JPA for efficient database interactions, enabling smooth CRUD operations on course content, user management, and learning modules.
- **Designed** a responsive UI using Thymeleaf and Bootstrap, ensuring a seamless user experience across different devices and screen sizes.

CERTIFICATES

Java Summer Training AUG-SEPT 2024
ONLINE

- Completed a summer training internship in Java at Softpro India, Lucknow, where learned Java programming and gained hands-on experience through project work.

E summit OCT 2023
IIT KANPUR

- Participated in insightful keynote sessions, panel discussions, and workshops led by esteemed speakers and industry experts, gaining valuable insights into emerging trends, challenges, and opportunities in the startup ecosystem
